Melt Monitor

Sprint 4 Summary Report

Team 6

Chance Kissel, Lwin Moe

Paul Lewis Marcos, Soham Bhowmick

Sprint 4 Summary Report

What Went Well?:

- The main dashboard is still up and running.

- Development for the map feature has started and the website is doing well overall.

- The features and KPI cards data continue to improve.

- The overall progress is moving forward steadily.

- The source page of MeltMonitor has been created and formatted.

Where Did Problems Arise?:

- There are some problems with how to properly use and load live data.

- Our data source is not compatible with what we want. We are currently looking for reliable data sources.

- We are learning how to clean and handle big data.

- We have not finalized where to host our website yet.

- Scheduling meetings was challenging because the schedules of team members were rarely aligned to have a good amount of meaningful meetings.

- Ran into difficulties deciding how the backend and frontend of the web application would interact with each other.

Where Could We Have Improved?:

- We need to spend more time researching live data API integration.

- We need to make a quick decision on hosting and the data handling parts to avoid delays.

- We need to find reliable and compatible data and spend more time testing.
